3. Choose Account Type:
 - a. Create an Individual User Account to perform tasks such as register/update your entity, create and manage exclusion records or to view FOUO level data for entity records.
 - b. Create a System User Account if you need system-to-system communication or if performing data transfer from SAM to your

government database system. Complete the requested information, and then click “Submit.”

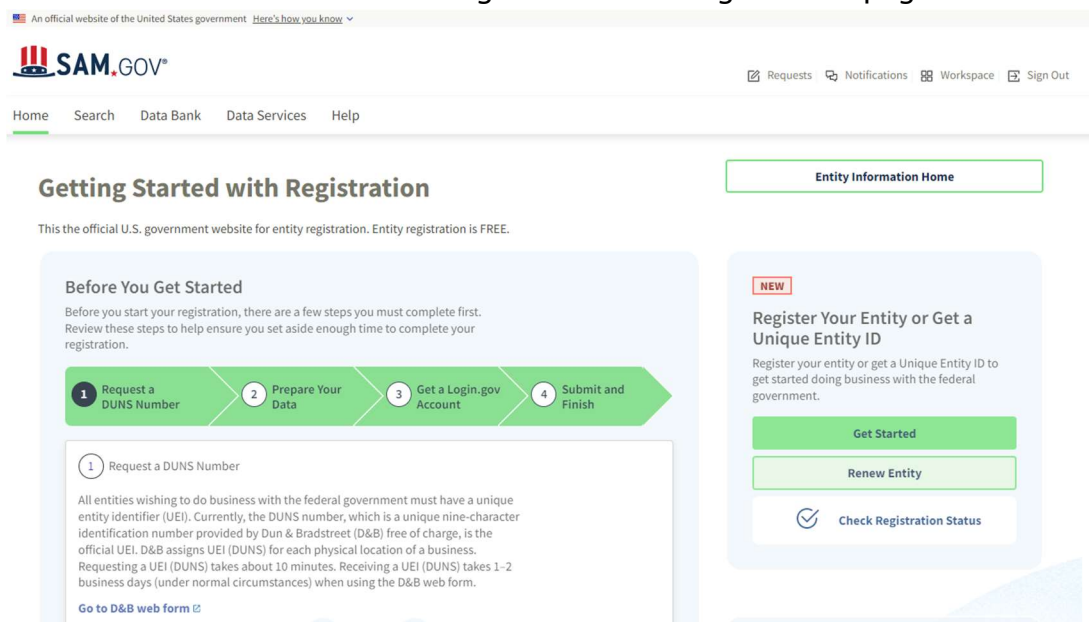

4. Click “DONE” on the confirmation page. You will receive an email confirming you have created a user account in SAM.
5. Click the validation link in the email that contains the activation code within 48 hours to activate your user account. If the email link is not hyperlinked (i.e., underlined or appearing in a different color), please copy the validation link and paste it into the browser address bar. You can now register an entity.

NOTE: Creating a user account does not create a registration in SAM, nor will it update/renew an existing registration in SAM.

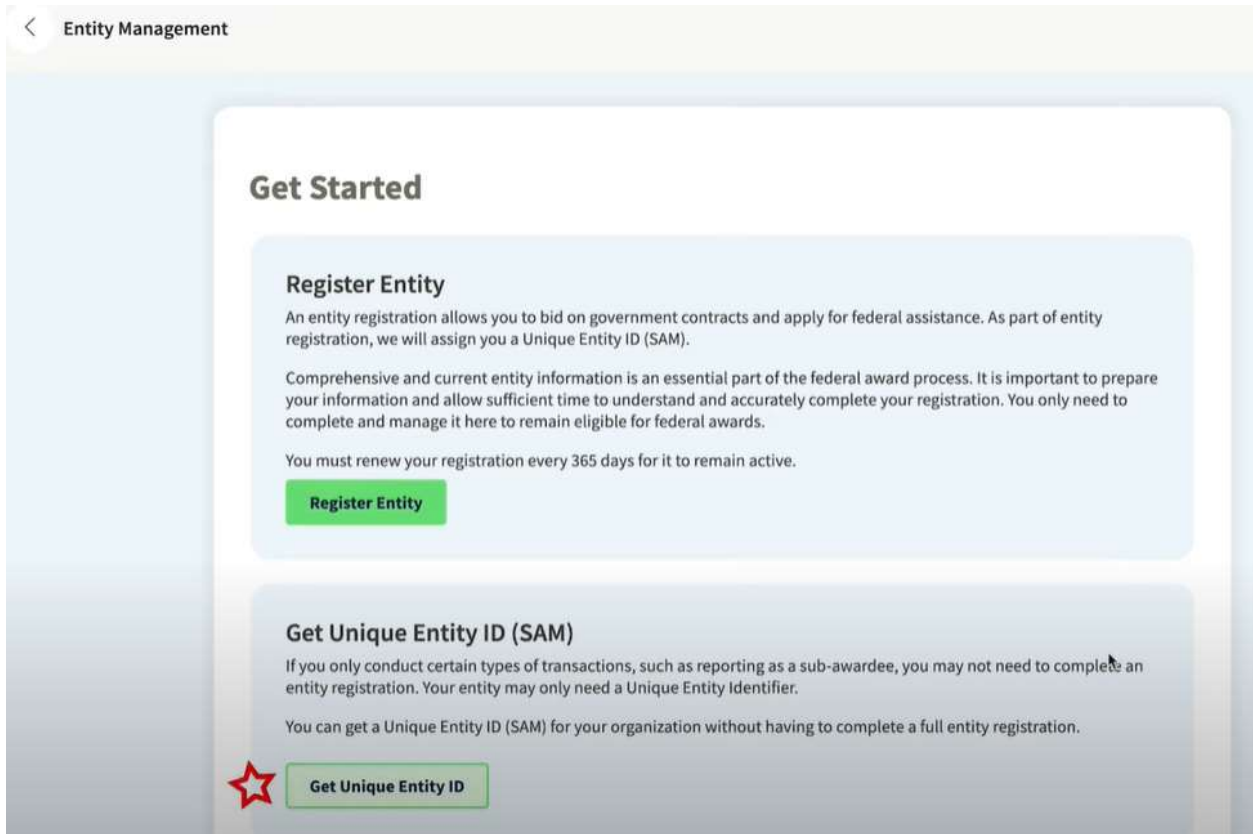

2. Once you have registered as a user, you can get an Unique Entity ID by selecting the “Get Started” button on the SAM.gov home page.

3. Select “Get Started” on the Getting Started with Registration page.

4. Select “Get Unique Entity ID” on the Get Started page.

5. Enter Entity Information.

- a. If you previously had a DUN Number, make sure your Legal Business Name and Physical Address are accurate and match the Entity Information, down to capitalization and punctuation, used for DUNS registration.

6. When you are ready, select “Next”

7. Confirm your company’s information.

- a. On this page you will have the option to restrict the public search of this information. “Allow the selected record to be a public display record.” If you uncheck this box, only you and the federal government users will be able to search and view the entity information and entities like DAI will not be able to independently verify that you have an Unique Entity Identifier (SAM).

 **Allow the selected record to be a public display record.**

If you feel displaying non-sensitive information like your registration status, legal business name and physical address in the search engine results poses a security threat or danger to you or your organization, you can restrict the public viewing of you record in SAM's search engine. However, your non-sensitive registration information remains available under the Freedom of Information Act to those who download the SAM public data file.
